### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**In claim 1, a period has been inserted at the end of the claim (after the structures).**

The above amendment is merely editorial in nature and does not affect the metes and bounds of the claim.

### ***Claim Objections Withdrawn***

The objection to claim 10, outlined in the previous Office Action, has been overcome by applicant's amendment. The amendment corrects the claim text as appropriate.

### ***112 Rejections Withdrawn***

The rejection of claim 1 under 35 USC 112, first paragraph, outlined in the previous Office Action, has been overcome by applicant's amendment. The

amendment narrows the scope of both the starting materials and the catalyst such that the rejection is no longer tenable.

### ***102 Rejections Withdrawn***

The rejection of claims 1-10 under 35 USC 102(b), outlined in the previous Office Action, has been overcome by applicant's amendment. As above, the amendment narrows the independent claim with respect to both starting materials and catalysts such that it no longer reads on the cited prior art.

### ***Allowable Subject Matter***

Claims 1-10 are allowed. The following is an examiner's statement of reasons for allowance:

The closest prior art remains the prior art of record: US 6,034,206. As outlined above, applicant has narrowed the claims both in terms of starting materials and catalysts such that they no longer read on this cited prior art. US 6,034,206 neither teaches nor suggests the instant process. Nor would it have been obvious to one of ordinary skill in the art at the time of invention to modify the process of the prior art in order to arrive at those of that instant invention. There is no motivation to do so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
